Art Unit: 3643

PROPOSED CLAIM:

35. (PREVIOUSLY AMENDED) An insect bait station for killing *Musca domestica*, said station comprising:

a cylindrical body having an external surface oriented generally vertically, said external surface comprising at least one recessed groove, extending along substantially the entire longitudinal length of said cylindrical body, configured to support an oral insecticide of a viscous liquid or solid formulation so that said oral insecticide is exposed to said external surface of said body, wherein said oral insecticide is a member selected from the group consisting of nitromethylene and a phenyl pyrazole, and wherein said external surface of said body provides one or more edges for insects to land on or near said oral insecticide, whereby said oral insecticide is contained substantially in said recessed groove.
